

Novel Parallel Programming Languages for HPC
National eScience Centre (NeSC), 15 South College Street, Edinburgh
Wednesday 18th June, 2008

09:00-09:30	Registration and Coffee	
	09:30-09:45	Intro, David Henty
	09:45-10:30	Co-array Fortran - John Reid, Rutherford Appleton Laboratory
	10:30-11:15	Chapel - Brad Chamberlain, Cray
11:15-11:45	Coffee	
	11:45-12:30	Sun Fortress - Victor Luchangco, Sun Microsystems
	12:30-13:15	X10 - Olivier Tardieu, IBM
13:15-14:00	Lunch	
	14:00-14:30	Applications of UPC - Jason Beech-Brandt, Cray CoE
	14:30-15:15	Object-Oriented Languages for HPC, Stephen Booth, EPCC
	15:15-16:15	Discussion

Chapel - Brad Chamberlain, Cray

Sun Fortress - Victor Luchangco, Sun Microsystems

Co-array Fortran - John Reid, Rutherford Appleton Laboratory

X10 - Olivier Tardieu, IBM

Applications of UPC - Jason Beech-Brandt, Cray CoE

Object-Oriented Languages for HPC, Stephen Booth, EPCC
